

Legacy Prep Christian Academy (LPCA) is a University Model School (UMS) that first opened its doors in the fall of 2005. We partner with parents to inspire their children to be college-worthy, character witnesses for Christ. Through our university-style schedule, students in grades PreK-12 learn the discipline and organizational skills to be successful in college and life. Our campus has grown to encompass 22 acres between FM 1488 and Research Forest and is easily accessible to families in Montgomery and surrounding counties.

With just over 700 students, Legacy competes in the TAPPS 4A division and has won numerous state championships in several different sports, in addition to multiple final four and state runner-up appearances. The blessing of competing athletically at Legacy is that students may participate in multiple sports, as their schedule allows.

The Legacy Prep Booster Club is a group of volunteers dedicated to supporting our athletic programs and athletes through the purchase of new equipment, uniforms, and improvement of our athletic facilities.
