EMERGENCY ACTION PLAN INJURY PROTOCOL

IN A LIFE THREATENING EMERGENCY DIAL 911!

Life Threatening Emergency

1. Stabilize the victim and dial 911
2. Direct Emergency personnel to scene, provide address listed above. Indicate if a head or neck injury is suspected to dispatch operator.
3. If available, designate someone to “flag down” EMS and direct them to scene
4. Retrieve emergency equipment (AED, First Aid Kit, etc...). Emergency equipment is located inside BASEBALL press box

Non – Life Threatening Emergency

1. Contact Bentonville Athletic Training Staff
2. Provide location, name, victims name, phone number and brief description of accident
3. Follow all given instructions
4. Remain with victim till Bentonville school personnel arrive

Roles and responsibilities of Certified Administration, Athletic Trainer (ATC), Coaches

- Immediate evaluation and care of the more seriously-injured or ill student-athletes;
- Activation of emergency medical system (EMS)
- 911 call (provide name, address, telephone number; number of individuals injured; condition of injured; first aid treatment; specific directions; other information as requested;
- Direct EMS personnel (ambulance) to scene
- Emergency equipment retrieval
- Ensure emergency entrance to Baseball/Softball facility is clear and accessible (check parking lots regularly)
- Unlock and open doors and gates for EMS to access facility
- Direct EMS personnel (ambulance) to scene (in the event there are no student trainers present)
- Scene control: limit scene to sports medicine personnel and move bystanders (including other athletes) away from area of injured athlete.
- Contact students parent or guardian

LIGHTNING POLICY

All coaches and athletes will use the following guidelines in the event of lightning: In the event of lightning being present, the Athletic Trainer will alert all coaches when the lightning detection system detects lightning within 3-8 miles. Should an Athletic Trainer not be present, use the flash to bang method (Flash to Bang Method – count the seconds from the time that lightning is sighted to when the clap of thunder is heard. A flash to bang count of 30 seconds or less indicates an unsafe proximity). In either event all individuals are to leave the athletic site and head for safe shelter (enclosed, non-metal structure). It is recommended that you not return to the field for 30 minutes after the storm is passed (last thunder heard), or until the Athletic Trainer has given clearance. **The Athletic trainer will begin a timer from the last thunder heard. If 30 minutes has passed and thunder has not been heard, the athletic trainer can give clearance to return to participation. Should thunder be heard during the timing process, the timer must be reset until 30 minutes has passed.
