

To: Parents or Guardians of All Students Who Participate in Athletics and/or AAA Sponsored Activities.

From: Farmington Athletic Department

RE: Accident Insurance for Students in AAA Activities

The following facts should be fully understood by the parents and guardians of all Farmington School District athletes and students who participate in school sponsored activities in grades PK through 12.

1. The Farmington School District has entered into a contractual agreement with Bollinger, Inc., for athletic and extracurricular insurance. This coverage is for AAA sponsored activities, including all AAA athletic events. Your child will be covered while participating in, practicing for, and traveling to and from such an activity.
2. Farmington School District assumes no responsibility as a result of injuries that occur during an athletic or AAA event; however, this insurance is provided at school expense. This is a SECONDARY INSURANCE to whatever health insurance the parent or guardian has for their children, and all claims should be filed with the primary health insurance company and with Bollinger, Inc. You will need to indicate on the Bollinger, Inc., claim form the name and address of your regular insurance carrier.
3. If the student has no other insurance coverage, Bollinger, Inc., will become the primary carrier and will pay accordingly. The parent or guardian should indicate on the claim form if they have no other health insurance.
4. All policies have limitations. Parents will be responsible for any amounts remaining after both the primary health insurance and Bollinger, Inc., limitations have been reached.
5. The Farmington School District and its employees are NOT responsible for any costs for treatment to your child by any doctor.
6. In case of any injury, it is the responsibility of the parent to file a claim form. The forms are available in the Athletic Director's office, located at 12329 N. Hwy. 170, or by printing a form located on the Bollinger, Inc. website at www.BollingerInsurance.com. No Farmington School District employee is responsible for filing your claim.
7. As with any policy, there are policy exclusions.
8. Treatment must begin within 30 days from injury, and claims must be filed within 90 days of injury. Benefits will be paid for covered expenses incurred within 52 weeks from the date of the accident.
9. You may wish to purchase the additional insurance that is available to your child. This should be purchased at the beginning of the school year and is the same basic coverage. The At School Coverage provides coverage for injuries that occur at school or during school-sponsored activities during the regular school year. The 24 Hour Coverage provides coverage 24 hours a day until the first day of the following school year. If you did not receive a brochure regarding 24 hour coverage, student life insurance or dental accident insurance, please contact the Athletic Director's office at 479-266-1806.

If you have any questions, feel free to call 266-1806 or visit the Bollinger, Inc., website at www.BollingerInsurance.com

I have read and understand that the coverage provided by the Farmington School District has certain limitations and is considered primary coverage only if I have no other coverage for my child(ren). I further understand that Farmington School District is not responsible for payment or any medical expenses not paid by Bollinger, Inc.
