

CONWAY

GOLF

The Conway Wampus Cat Golf Program is about developing better golfers, better teammates, better students, and better people. We want young men and women to grow into confident, responsible leaders who represent Conway High School with pride, integrity, and respect.

We believe success is about more than a score on a scorecard. Our program emphasizes character, work ethic, accountability, discipline, composure, and a commitment to continuous improvement. We want our golfers to learn how to compete, handle adversity, support one another, and take pride in doing things the right way—on and off the golf course.

DEVELOPMENT & COMPETITION

Our high school season begins with practices in mid-July and competitive play in early August, continuing through early October. Development continues throughout the offseason through strength and flexibility training, putting and short-game work, driving-range sessions, indoor practice, and playing opportunities when weather allows.

Players are encouraged to compete in junior golf events at the local, state, and national levels when opportunities are available. These experiences help our golfers build confidence, learn to manage their games, and prepare to compete at their highest level.

A PLACE TO GROW

Conway Golf provides opportunities for players in grades 9–12 through both Varsity and Junior Varsity competition. Our goal is to provide every golfer with meaningful opportunities to improve and compete.

Players can earn opportunities to move from JV to Varsity through practice performance, qualifying rounds, competitive results, consistency, work ethic, and overall readiness. Likewise, Varsity players are expected to continue earning their opportunities through preparation and performance.

We believe improvement creates opportunity. Every player should understand that where they begin is not necessarily where they finish.

WHAT IT MEANS TO BE A WAMPUS CAT

We expect our golfers to represent Conway with pride, respect the game and those around them, support their teammates, compete with composure, and hold themselves accountable.

Our ultimate goal is to build a program where golfers leave Conway with more than improved skills. We want them to leave with the **character, confidence, discipline, leadership, and life skills** that will serve them long after their high school golf careers are over.

We compete to win, but we develop to last.
