

Conway Softball strives to be an organization that is based on building athletes with strong character, integrity, and who have a mutual respect for one another. We use this foundation to help these ladies develop to their full potential as players, teammates and community members.

- Varsity playing time is based on having the knowledge and skills to execute plays at a highly competitive level with the effort, and attitude needed to win. The players who can compete at this level consistently in the view of the coaching staff will play at this level.

- Junior Varsity playing time is limited to 9-11th grade and is a time to work in a competitive manner with focus, effort and attitude on improving their skills to be able to advance to the varsity level.

- The coaching staff will evaluate the focus, attitude and effort made by the players in practices and competitions to determine placement on Varsity and Junior Varsity team line-ups.
