Guidelines for Ineligible Students

A student who receives, at the end of any grading period (after the first six weeks of the school year), a grade below 70 in any class may not participate in extracurricular activities for at least three weeks. The student regains eligibility when the principal and teachers determine that he or she has (1) earned a passing grade (70 or above) in all academic classes and (2) completed the three school weeks of ineligibility and seven calendar day waiting period.

While ineligible, a student may practice (scrimmages are considered a practice) or rehearse but may not participate in a contest or performance (see the definition of an Extracurricular Activity below). Ineligible students may attend an athletic contest but should be a spectator only. The ineligible student may not travel with the team, be in uniform, sit on the bench, or be assigned any team duties during the contest. Ineligible students cannot be required to attend a contest. Ineligible students may attend pep rallies and parades but cannot participate in the pep rally or parade. Ineligible students are permitted to be introduced during parent night activities as a member of a team or group. However, they may not be in uniform or seated with the student organization they represent during the event.

All activity coaches are responsible for the academic eligibility of the students who participate in their activity. If there are any questions concerning the eligibility or interpretation of the eligibility rules, please refer these questions to your director.

Highland Park Middle School UIL Eligibility Calendar – 2025-2026

Definition of Extracurricular Activity

19 TAC §76.1001, Subchapter AA

(a) An extracurricular activity is an activity sponsored by the University Interscholastic League (UIL), the school district board of trustees, or an organization sanctioned by resolution of the board of trustees. The activity is not necessarily directly related to instruction of the essential knowledge and skills but may have an indirect relation to some areas of the curriculum. Extracurricular activities include, but are not limited to, public performances, contests, demonstrations, displays, and club activities, with the exception of public performances specified in paragraph (2) of this subsection.

(1) In addition, an activity shall be subject to the provisions for an extracurricular activity if any one of the following criteria apply:

(A) the activity is competitive;

(B) the activity is held in conjunction with another activity that is considered to be extracurricular;

(C) the activity is held off campus, except in a case in which adequate facilities do not exist on campus;

(D) the general public is invited; or

(E) an admission is charged.

(2) A student ineligible to participate in an extracurricular activity, but who is enrolled in a state-approved course that requires demonstration of the mastery of the essential knowledge and skills in a public performance, may participate in the performance subject to the following requirements and limitations.

(A) Only the criterion listed in paragraph (1)(D) of this subsection applies to the performance.

(B) The requirement for student participation in public is stated in the essential knowledge and skills of the course.

The Commissioner of Education is not authorized to approve extracurricular organizations outside of school sponsored or UIL sponsored groups. Local boards of trustees are responsible for the sanctioning and approval of outside organizations as “extracurricular organizations” for their individual districts.
