Section 103 – Amateur Athletic Status

An amateur participates in athletics for the aesthetic, physical, mental, and social benefits derived there from. Therefore, the purpose of such participation is playing for the intrinsic rewards rather than for valuable consideration. The amateur rule is a safe-guard against exploitation and commercialization of high school students. It poses a responsibility on the student at all times (whether in school or outside school) to abide by the letter and intent of amateurism. Schools are charged with the responsibility of informing students of all applicable subsections of this rule and enforcing this rule. Administrators and coaches must insure that athletes receive only services specifically permitted by written rule. Any breach of the rule undermines the educational goals of interscholastic athletics.

- I. NOT AN AMATEUR. For purposes of competing in an athletic contest, a student in grades 9-12 is not an amateur if that individual, within the preceding 12 months received money or other valuable consideration for participating in a TAPPS sponsored school sport or received valuable consideration for allowing his or her name to be used in promoting a product, plan, or service related to a TAPPS contest or accepted money or other valuable consideration from school booster club funds for any non-school purpose.
- II. EXCEPTIONS:
 - A. Seniors may sign a letter of intent or scholarship agreement which contains the conditions of a scholarship with a post-secondary institution.
 - B. For purposes of competing in an athletic contest, the participant school, school district or a student's parent(s) may provide medical examination and services, athletic insurance, transportation and other travel expenses incurred in competing away from home, or supplies and services during and in connection with a game or practice period.
 - C. Participant schools may permit student athletes to attend contests by permit admission through a pass gate.
- III. STATUS REGAINED. If a student did not realize that accepting the valuable consideration was a violation of the amateur rule, and returns the valuable consideration within 30 days after being informed of the violation, that student may regain athletic eligibility as of the date the valuable consideration is returned. If a student fails to return it within 30 days, that student remains ineligible for one year from when he or she accepted it. During the period of time a student is in possession of valuable consideration, he or she is ineligible for all varsity athletic competition. Any games or contests in which the student participated during that time may be forfeited as the minimum penalty.
- IV. TEAM VIOLATION. If the team violates this section, the penalty shall be assessed against the team and not against each individual.

Athletic Bylaws - Sections 130-198

Subchapter A - Athletic Plan

Section 130 – Purpose of High School Athletics

NOTE: Rules that list the sport or sports to which they apply shall apply only to the sport(s) listed.

The purposes of the athletic program for the participant schools are:

- I. to assist, advise and aid the private and parochial schools in organizing and conducting interscholastic athletics;
- II. to devise and prepare eligibility rules that will equalize and stimulate wholesome competition between schools of similar size, and reinforce the curriculum;
- III. to regulate competition so that students, schools, and their fans can secure the greatest educational, social, recreational and aesthetic benefits from the contests;
- IV. to reinforce the concept to all participant schools that athletics is an integral part of the educational program;
- V. to preserve the game for the overall benefit of the contestant and not sacrifice the contestant to the game;
- VI. to promote the spirit of good sportsmanship and fair play in all contests;
- VII. to promote among the players, schools and fans a spirit of friendly rivalry and a respect for the rules; and
- VIII. to forward the concept of accepting decisions of sports officials without protest and treating officials as co-partners in the educational process of competition.

Section 131 – Athletic Codes

The Athletic Code and the Athletic Code for Coaches carry the force of rule. Member schools, participant schools and/or covered school district personnel who violate any of the provisions of these codes will be subject to penalty.

- I. THE ATHLETIC CODE. The general Athletic Code means to:
 - A. Play the game in the spirit of fairness and sportsmanship, observing all rules, both in letter and intent.
 - B. Coach and sponsor the teams and individuals without resorting to unethical tactics, trickery which attempts to skirt the rules, or any unfair tactic which detracts from sound educational principles.
 - C. Accept decisions of sports and school officials without protest, and without questioning their honesty or integrity, and extend protection and courtesy to sports officials from participants, school personnel, and spectators remembering that officials are guests.
 - D. Regard opponents as guests, putting clean play and good sportsmanship above victory at any cost. Win without boast and lose without bitterness. Victory is important, but the most important thing in sports is striving to excel and the positive feelings it fosters between those who play fair and have no excuse when they lose. The development of re-creative aspects and positive human relations should be stressed in all competitions.
 - E. Provide information or evidence as soon as possible regarding eligibility of any contestant or school to the local administration, then to the proper district executive committee. To withhold information is considered dishonorable and contrary to good sportsmanship. Schools guilty of violating this section may be subject to penalty as described in Sections 23 and 25 including disqualification from district honors in the germane activity. Covered school district personnel guilty of violating this section may be subject to the range of penalties as described in Sections 23 and 25.
 - F. Not provide inducement for athletic purposes. Inducement means to encourage a student to change schools for the purpose of participating in TAPPS activities by offering the student or the student's parent cash, waiver of tuition, board or lodging, transportation, a job, or other valuable consideration to induce the student to enroll in a participant school.
 - G. Avoid tampering with students whether the student is enrolled in a TAPPS or other school.
- II. THE ATHLETIC CODE FOR COACHES. The code for athletic sponsors includes the principles described in Subsection 131 and the purposes listed in Section 130. Further, the coach's code includes:
 - A. Being aware of, understanding, and following all rules governing the competition for which the coach is responsible.
 - B. Informing one's immediate supervisor in writing the next school day after a contest if ejected from that contest for unsportsmanlike actions, or, in football, if given two 15-yard unsportsmanlike penalties during one contest, knowing that such conduct requires automatic penalty.
 - C. Abstaining from removing the team from the contest in protest.
 - D. Treating athletes based on what is best for the education, general welfare, and health of the student.
 - E. Professional loyalty to other coaches.
 - F. Adhering to in season and out of season practice regulations.
 - G. Adhering to policies which do not force athletes to specialize or restrict them from participation in other sports.

- H. Allowing students to participate in one school sport with-out requiring, as a prereq-uisite, participation in an-other school sport.
 - I. Abstaining from any practice which would bring financial gain to the coach by using a student's participation in a camp, clinic, league, or other non-school athletic event, such as a rebate for each player sent to a particular camp or from each player using a particular product. Coaches shall not charge a fee for private instruction to student athletes during the school year. The restriction on charging fees for private instruction applies only to those students who are:
 - 1. in grades 9-12;
 - 2. from the coach's school; and
 - 3. participating in the sport for which the coach is responsible.
 - J. Abstaining from any practice that makes a student feel pressured to participate in non-school activities.
 - K. Avoiding any coaching practice which would endanger the wel-fare or safety of any player.
 - L. Emphasizing the academic pro-gress of all participants by a regular, documented check of their academic standing, both in season and out of season.
 - M. Scheduling games and practices to avoid unnecessary loss of study or class time.

- C. Exchanging films with an opponent is a recognized and accepted practice for scouting purpose. For example; team A is playing team B in game 3 of the season, the coach from A trades his film from game 1 and/or 2 with the coach from team B for his film from game 1 and/or 2. The films are the property of the school doing the filming and they do not have to get permission from anyone to exchange their own property.
- D. For a coach to contact a team that has played his opponent and arrange to "borrow" or trade for that film is not a violation. The film is the property of the school that made it legally, since they were involved in the game.
- E. Districts may make a rule that member schools may not "loan out" films, after the play-offs begin, in order to "protect" their district representatives. This is a district rule - not a TAPPS rule!
- F. Schools in the football play-offs are REQUIRED to exchange 3 quality tapes with their opponent (recipient's choice)
 - 1. No later than 10:00 am on Monday, before a Friday Game.
 - 2. *Videotaping/ Filming by Individuals.* Any individual taping or filming must have permission from the schools involved in the contest and may not obstruct the view of other spectators of the contest.
 - 3. *Commercial Uses.* Use of the films or tapes for commercial purposes must be approved by all schools involved in the contest.
- G. *Regional and State Playoffs.*
 - 1. Schools and/or individuals must have prior approval of the tournament director to film or videotape a regional or state tournament, and may not obstruct the view of other spectators of the contest.
 - 2. Commercial enterprises must have prior approval of the tournament director and the TAPPS director to film or videotape a regional or state tournament, and may not obstruct the view of other spectators of the contest.

 - b) During the first series of a period, Team A attempts a field goal. While the ball is in the air, Team B commits a post-scrimmage kick foul. The field goal is successful. RULING: Team A's field goal stands. Team A's series is ended. Team B will begin its series by snap, first and 10, from the spot where the distance penalty from the 25-yard line leaves the ball.
 - c) During the first series of a period, Team A attempts a field goal. While the ball is in the air, Team B commits a post scrimmage kick foul. The attempt is unsuccessful. Team B catches the ball and returns it to Team B's 15-yard line, where Team B is downed. RULING: Team A's series is ended. Penalize Team B from the 25-yard line. It is Team B's ball, first down and 10.
 - d) During the first series of a period, Team A passes and a Team A back is illegally in motion during the down. The pass is intercepted, and Team B commits a foul before scoring a touchdown. RULING: Score not allowed. The series is ended, and Team B begins its series on the 25-yard line.
 - e) During the second series of a period, Team B intercepts a pass and runs for a touchdown. During the run, Team B clips at midfield. RULING: Nullify the score, and if the score is tied, the next period will start with a 15-yard (or half the distance to the goal) penalty against Team B. The down and distance will be first and 10.

- H. *Timeouts*. Each team shall be allowed one timeout for each extra period. Timeouts not used during the regulation periods may not be carried over into the extra period(s). Unused extra-period timeouts may not be carried over to other extra periods. Timeouts between periods shall be charged to the succeeding period.

Subchapter J

SWIMMING OVERVIEW

(Boys and Girls Events; Three Classifications)

Our season is built around the TAPPS directed/organized Regional and State Meets. There are no District competitions organized by TAPPS. In 2013 we created three Regions Meets (North, Central and East) designed to more efficiently run these meets as the swimming competition continues to grow. Dates and venues are posted on the [TAPPS](#) website.

Swimming is considered an Individual Sport, and has no beginning and ending dates for declaring a season or training period. While coaches can coach their swimmers and divers year round, TAPPS Coaches need to meet TAPPS coaching requirements to be entitled to represent a school at competitions. Please look at the Swimming Checklist.

Local meets are run by local high schools and TISCA sponsored meets. Swimmers may also compete in USA, YMCA and other swim competitions during the summer and school year. Ask other coaches for local meets for private or public high schools in your area.

Swimmers do not have to have swum the events they want to enter at Regionals during the current school year. However, best estimates on times will place your swimmer in the most competitive heat relative to their abilities.

ATHLETIC PURPOSE, CODE, PLAN APPLICABLE

Rules in Sections 130-144 also apply to the Swimming Plan.

Section 178 – Championship Meets

NFHS Rules will govern TAPPS Swim competitions. The regional meets as well as the State Meet are considered championship meets. In addition, TAPPS rules state:

Section 210 – Advanced Math Contest

All rules in Section 209 apply to this contest.

I. NATURE OF THE CONTEST.

- A. Test Questions. The 40-minute test will consist of 60 multiple-choice questions designed to test knowledge and understanding in the areas of algebra I and II, geometry, trigonometry, math analysis, analytic geometry, pre-calculus, probability, and elementary calculus.

II. USE OF CALCULATORS.

- A. Student May Use Calculators. Contestants will be allowed to use any commercial silent hand-held calculator that does not require auxiliary electric power and as long as they are not modified. Each student may bring one spare calculator. Small, hand-held computers are not permitted. Calculator memories are not cleared.

III. CONDUCTING THE CONTEST.

- A. *Reading the Contest Instructions.* The contest director will read the following directions exactly as they are printed:
 - 1. ***Turn off your cell phone and any other electronic devices besides permitted calculators and place them on the edge of the table in front of you. You may not use your electronic device(s) in any manner during the contest. If your device(s) make any noise or if you use your device(s) in any manner, you will be disqualified.***
 - 2. **Print your name, school, and school classification in the directed place on your test and answer sheet. Failure to write your name and school may result in disqualification. (Allow time for this to be done).**
 - 3. **Indicate your answers using capital letters on the appropriate blank provided on the answer sheet. Failure to do so will result in disqualification.**
 - 4. **Keep your papers closed until told to do otherwise; this is particularly important while test papers are being distributed and before the signal to begin has been given.**
 - 5. **During the test, no questions may be asked or answered. Any contestant talking or making distracting noises may be disqualified.**

7. Transferring information concerning this test to other contestants or coaches is a violation of the Academic Meet Code and subject to penalties up to and including disqualification.
 8. You will be allowed the use of calculators on this test.
 9. You have 40 minutes for this test. If you are in the process of writing down an answer, you may finish; you may not do additional work on a test question.
 10. You will receive plus six points for each correct answer and two points shall be deducted for an incorrect answer. No points will be given or subtracted for unanswered questions.
 11. If you finish the test before the end of the allotted time, you may leave the room quietly. No talking or distracting noises may be made. Turn in all your testing materials as you leave.
 12. You may place as many notations as you desire anywhere on the test paper except on the answer sheet, which is reserved for answers only. You may use additional scratch paper provided by the contest director.
 13. **No audible time warnings will be given once the contest begins. It is the responsibility of each contestant to monitor the time remaining in the contest with a device that does not connect to the internet or make audible sounds.**
- B. *Stop and Start Signals:* Exactly 40 minutes after the start signal was given, announce that time has expired and that contestants must turn in their test and answer sheet. If contestants are in the process of writing down an answer, they may finish; they may not do additional work on a test question.
- C. *Scoring.* Each contestant will be awarded six points for each question answered correctly, not points will be given or subtracted for unanswered questions, and two points will be deducted for an incorrect answer.
- D. *Ties.* In the event of a tie, the formula for percent accuracy shall be used to break the tie. The formula is: percent accuracy= # of problems correct ÷ by # of problems attempted. The contestant with the highest percent of accuracy shall be awarded the higher place. If the percent accuracy scores are the same, then a tie exists.

IV. NO STUDENT MAY PARTICIPATE IN BOTH TAPPS MATH AND ADVANCED MATH.

Section 211 – Calculator Applications Contest

All rules in Section 209 apply to this contest.

- I. NATURE OF THE CONTEST.
- II. Test Questions. The 30-minute contest shall include calculations involving addition, subtraction, multiplication, division, roots, powers, exponentiation, logarithms, trigonometric functions, and inverse trigonometric functions. In addition to straightforward calculation problems, the contest shall include geometric and stated problems similar to that found in high school algebra, geometry, and **precalculus** textbooks.
- III. USE OF CALCULATORS.
- IV. Student May Use Calculators. Contestants will be allowed to use any commercial silent hand-held calculator that does not require auxiliary electric power and as long as they are not modified. Each student may bring one spare calculator. Small, hand-held computers are not permitted.
- V. CONDUCTING THE CONTEST.

A. Reading the Contest Instructions. The contest director will read the following directions exactly as they are printed:

1. ***Turn off your cell phone and any other electronic devices besides permitted calculators and place them on the edge of the table in front of you. You may not use your electronic device(s) in any manner during the contest. If your device(s) make any noise or if you use your device(s) in any manner, you will be disqualified.***
2. Print your name, school, and school classification in the directed place on your test and answer sheet. Failure to write your name and school may result in disqualification. (Allow time for this to be done).
3. Keep your papers closed until told to do otherwise; this is particularly important while test papers are being distributed and before the signal to begin has been given.
4. During the test, no questions may be asked or answered. The contestant talking or making distracting noises may be disqualified.
5. Leaving the room with any contest materials will result in disqualification.
6. Transferring information concerning this test to other contestants or coaches is a violation of the Academic Meet Code and subject to penalties up to and including disqualification.
7. You may write on the test paper, but only the answer should be written in the answer space. You may erase or mark out a previously written answer, provided you write the revised answer within the answer space and clearly indicate the answer you wish to have graded. Answers may be written in decimal or in powers of 10 notation of the form, 1.23×10^{-6} . Except in integer, dollar sign, and certain stated problems, answers should be written with three significant digits only, with plus or minus one unit error in the third significant digit permitted. Integer problems require answers written as an integer and no error is permitted. Dollar sign problems should be answered to the exact cent, but plus or minus one cent error is permitted. Stated problems using inexact numbers require use of the method of least significant digits. Problems requiring the method of least significant digits are indicated by "sd" in the answer blank. Plus or minus one unit error in the last significant digit is permitted. Answers should be given in the units specified and with the correct sign. The test cover sheet illustrates how answers should be written.
8. You have 30 minutes for this test.
9. **No audible time warnings will be given once the contest begins. It is the responsibility of each contestant to monitor the time remaining in the contest with a device that does not connect to the internet or make audible sounds.**
10. All problems through the last problem completed or attempted will be graded. A problem is considered to have been attempted if any mark or erasure appears in the answer space for that problem. Scoring is plus five points for correct answers and minus two points for incorrect, skipped, or illegible answers. Stated problems involving inexact numbers that are answered correctly but with the incorrect number of significant digits are awarded plus three points, provided at least two significant digits are indicated and the more precise answer rounds exactly to the lesser precise answer.

11. **When the end of the contest period is indicated, you must cease calculator operations. After the signal to stop is given you may, however, write down one number displayed on your calculator.**
 12. **You may do calculations on your test paper as long as it is not in the designated answer space.**
 13. **You may use any silent, hand-held calculator that does not require auxiliary electric power.**
 14. **If you finish the test before the end of the allotted time, you may leave the room quietly. No talking or distracting noises may be made. Turn in all your testing materials as you leave.**
- B. *Stop and Start Signals.* Exactly 30 minutes after the start signal was given, announce that time has expired and that contestants must turn in their test. If contestants are in the process of writing down an answer, they may **write down one number displayed on their calculator**; they may not do additional calculations on their calculator or test.
 - C. *Scoring.* Each contestant shall be awarded five points for each question answered correctly; two points will be subtracted for each question answered incorrectly, or is skipped. Stated problems involving inexact numbers and labeled 'sd' that are answered correctly but with the incorrect number of significant digits are awarded plus three points, provided at least two significant digits are indicated and the more precise answer rounds exactly to the lesser precise answer. No points shall be deducted for unanswered questions after the last attempted problem.
 - D. *Ties.* In the event of a tie, the higher place shall be given to the contestant gaining the most points on stated and geometric problems. If the same number of points is gained on stated and geometric problems, then a tie exists. For all classifications, this tie breaking process will be used for 1st through 8th places. Should there be a tie for first place, there is no second place. Should there be a tie for second place, there is no third and so on.

 10. ***You will receive 1 point for each correct answer. The essay is required, but will be judged only in the event of a tie. Failure to complete the essay will result in disqualification.***
 11. ***When the signal is given to stop, you must cease all writing.***
 12. ***If you finish the test before the allotted time, you may leave quietly. No distracting noises will be permitted. Turn in all your test materials as you leave.***

Section 217 – Number Sense Contest

All rules in Section 209 apply to this contest.

- I. NATURE OF THE CONTEST. The 10-minute test will consist of 80 mental mathematics problems designed to test speed and accuracy in working problems of varying levels of difficulty. **ALL PROBLEMS ARE TO BE SOLVED MENTALLY.**
- II. USE OF CALCULATORS AND CALCULATIONS.
 - A. *No Calculators.* Contestants **will not** be allowed the use of calculators.
 - B. *Paper and Pencil Calculations.* **ALL PROBLEMS ARE TO BE SOLVED MENTALLY.** Make **no** calculations with paper and pencil. Only the results of calculations arrived at without the use of pencil and paper should be accepted. A contestant will be disqualified for violating this rule. A blue pen is mandatory for this contest
- III. CONDUCTING THE CONTEST.
 - A. *Reading the Contest Instructions.* The contest director will read the following directions exactly as they are printed:
 1. ***Turn off your cell phone and any other electronic devices and place them on the edge of the table in front of you. You may not use your electronic device(s) in any manner during the contest. If your device(s) make any noise or if you use your device(s) in any manner, you will be disqualified.***
 2. Print your name, school, and school classification in the directed place on your test and answer sheet. Failure to write your name and school may result in disqualification. (Allow time for this to be done).
 3. Keep your papers closed until told to do otherwise; this is particularly important while test papers are being distributed and before the signal to begin has been given.
 4. During the test, no questions may be asked or answered. The contestant talking or making distracting noises may be disqualified.
 5. Leaving the room with any contest materials will result in disqualification.
 6. Transferring information concerning this test to other contestants or coaches is a violation of the Academic Meet Code and subject to penalties up to and including disqualification.
 7. **Non-erasable blue ball point pen must be used to take the number sense test.** Write only the answer in the space provided at the end of each problem. No erasures, mark-overs, and/or mark-outs are permitted. These will be counted as incorrect answers.
 8. You have 10 minutes for this test.
 9. ***No audible time warnings will be given once the contest begins. It is the responsibility of each contestant to monitor the time remaining in the contest with a device that does not connect to the internet or make audible sounds.***
 10. All problems through the last problem completed or attempted will be graded. A problem is considered attempted if any mark or erasure appears in the answer space for that problem. Scoring is plus five points for correct answers and minus four points for incorrect, skipped, changed, or illegible answers.
 11. If you finish the test before the end of the allotted time, you must remain in your seat and retain your paper until told to do otherwise. No talking or distracting noises will be permitted.
 12. If you are in the process of actually writing down an answer on the answer sheet when the signal to stop is given, immediately stop writing, even if the answer is incomplete.

13. All problems are to be solved mentally. Make no calculations with paper and pencil. Do not attempt to solve the problem on paper, the desk, your hand, etc. You can be disqualified for violating this rule. All fractions must be reduced to the lowest terms. Decimal answers are permitted for those un-starred problems whose answers are exactly expressible as decimals. Starred problems on test sheet require approximate integral answers, i.e. they permit 5% error; un-starred problems require exact answers. Answers require only the writing of numerals. If a symbol is omitted from the printed test, the contestant need not include it in the answer. All dollars and cents problems must have complete answers. For example: twenty-three dollars must be written as \$23.00. Sixteen cents would be written \$.16 or 16¢, depending on the answer blank format. Answers should be written in the most efficient form possible. For example: if the answer is 16, 16.000 is not acceptable. Extraneous zeros are not to be used. For example: if .16 is the answer, 0.16 is not an acceptable answer. Answers should not be left in exponential form.

14. You will not be allowed the use of calculators on this test.

B. *Start and Stop Signals.* Exactly 10 minutes after the start signal was given, announce that time has expired and that contestants must turn in their test and answer sheet.

C. *Scoring.*

1. *Scoring problems.* Those problems occurring after the last problem solved correctly or attempted are not considered skipped and hence no deduction for them is made. "Attempted problem" means having a mark in the answer blank. Only the answers to the problems should be written on the paper. No other writing is permitted. An answer once written must be allowed to stand. Answers may not be crossed out. Erasures, mark-overs, and mark-outs are not permitted. Should there be an erasure or a mark-out or any indication the answer was changed, that problem is to be counted incorrect. The contest director is empowered to determine if a number is legible.
2. *Fractions.* All fractions in test papers must be reduced to the lowest terms. Decimal answers are permitted for those un-starred problems whose answers are exactly expressible as decimals. For example, $\frac{3}{2}$, $1\frac{1}{2}$, and 1.5 are all acceptable. Starred problems on test sheets require approximate integral answers, i.e., they permit five percent error: un-starred problems require exact answers.
3. *Symbols.* Symbols such as % and \$ are usually printed on the test. Therefore, answers require only the writing of numerals. If a symbol is omitted from the printed test, it is not the responsibility of the contestant to make sure the answer is complete. If not printed, the student need not include it in the answer.
4. *Dollars and Cents.* In agreement with the philosophy that answers should be complete, all dollars and cents problems must have complete answers. That is, twenty-three dollars must be written as \$23.00 (with \$ and 00). Sixteen cents would be written \$.16 or 16¢, depending on the answer blank format.
5. *Numerical answers.* Numerical answers should be written so that the answers are complete as in the two examples above. However, the answer should be written in the most efficient form possible. For example, if the answer is 16, the written answer 16.000 is not acceptable for the purposes of the number sense competition. Extraneous zeros are not to be used. For example, if .16 is the answer, 0.16 is not an acceptable answer.

6. *Exponentials*. An answer such as 3×10^3 should be expressed as 3000 and not left in exponential form.
- D. *Ties*. No ties are to be broken

Section 218 – Ready Writing Contest

All rules in Section 209 apply to this contest.

- I. **NATURE OF THE CONTEST.**
- II. *Purpose*. The purpose of this 90 minute contest is for the contestant to compose and write an original expository essay on a current topic during the allotted time. The expository essay should be interesting, organized and conform to correct English writing style. Contestants are given a choice between two prompts, each an excerpt from literature, publications (past and present), or speeches. The entire essay must explicitly develop the chosen topic.
- III. **THE COMPOSITION.**
 - A. *Nature*. **The composition is to be expository.** Expository writing explains, proves, or explores a topic in a balanced way, allowing the argument and the evidence given to be the deciding factor in the paper. Descriptive or narrative passages may be used to illustrate or reinforce an idea or point that is being explained, but must be clearly subordinate or incidental to the exposition. All writing should pertain to and develop the chosen prompt.
 - B. *Length*. There is no minimum or maximum length. An excellent essay is noted for its well-developed ideas and use of evidence to support the main point(s) as related to the chosen prompt.
 - C. *Title*. Each contestant shall write a title based on the subject statement he has chosen.
The penalty for omitting the title will be disqualification of the paper.
- IV. **CONDUCTING THE CONTEST.**
 - A. This contest will be conducted **online** approximately 6-8 weeks before the Academic State Meet. Additional instructions for accessing the Ready Writing contest will be posted on tapps.biz.
 - B. Contestants must be directly supervised at all times by someone who is **not a parent of a contestant or the school's ready writing coach**.
 - C. You have **ninety (90) minutes** for this contest. You are required to turn off any audible signals on any timing devices during the contest.
 - D. The essay should be interesting, organized and conform to correct English writing style. **The composition is to be expository.** Wordiness is to be avoided. There is no minimum or maximum length. The entire essay should explicitly develop the chosen prompt. Generic essays that could pertain to any topic are not allowed.
 - E. During the writing period, no questions may be asked or answered. There will be no communication among the contestants, the contestants and their coaches and other individuals.
 - F. You may use a **print copy** of a Thesaurus and a Dictionary during the contest. Resource materials MAY NOT be shared between contestants.
 - G. *Scoring*. Three judges will score and rank each essay for preliminary round. Three different judges will score, rank, and give comments for the final judging round.
 1. *Using the Rubric*. The three judges will use the supplied rubric to evaluate each essay. Judges will complete a rubric for each essay. The rubric is for focusing the judges comments and assisting when ranking the students' work.
 2. *Scoring*. After each judge has evaluated all essays, the contestant's score for each of the judges is the total sum from the rubric to determine the individual's

rank per judge. The sum of the 3 judges ranks will determine the overall rank with lowest sum of ranks determining 1st place.

- H. Ties will be broken according to the speech ranking system. (Section 224. Conducting the Contest/G. Ranking & Ties)
- I. See the TAPPS website for instruction details for taking the test.

Section 219 – Science Contest

All rules in Section 209 apply to this contest.

I. NATURE OF THE CONTEST.

- A. *Purpose.* The purpose of the Science Contest is to challenge high school students to do a wide range of reading in the areas of science, to gain an understanding of the significance of experiments rather than to recall obscure details, to be alert to new discoveries and information in the areas of science, to gain an understanding of the basic principles as well as knowledge of the history and philosophy of science, and to foster a sense of enthusiasm about science and how it affects our daily lives.
- B. *Test Questions.* The **90-minute** test will consist of 60 objective-type questions, 20 from each of the three subject areas of biology, chemistry and physics, designed to test the student's understanding of basic principles; the history and methods of science; recent developments in science; and ability to evaluate experimental results, rather than ability to memorize details. A periodic table and some useful mathematical relations are included at the front of the test.

II. USE OF CALCULATORS.

- III. Student May Use Calculators. Contestants will be allowed to use any commercial silent hand-held calculator that does not require external power. Each student may bring one spare calculator into the contest room. Handheld computers are not allowed.

IV. CONDUCTING THE CONTEST. .

 - a. The timekeeper will use a stopwatch to time each contestant and will display time cards to indicate **time remaining**.

3. *Doorkeepers.* If noise in the hall presents a problem for the contestants, the Meet Director shall assign an individual to maintain order/quiet in the halls.

1. *Sections.* If there are more than ten (10) contestants, preliminary rounds should be held. Finals for each event will be held in a single room after all preliminary results have been determined.
2. *Speaking Order.* The Meet Director will determine and post the speaking order in a prominent place for all contestants to view.
3. *Assembly and Roll Call.* At the designated contest time, roll is taken. Substitutions may be made at this time with certified alternates. Once roll is completed, no late contestants will be allowed to enter the contest room without prior approval.
4. *Audience.* **Audiences will not be permitted.**
 - a. Contestants must remain in the room following roll call until all contestants have performed. This rule does not apply to Persuasive Speakers.
 - b. No talking or disruptive noises may be made during another contestant's performance. Clapping when the performer has finished is encouraged.
 - c. No filming, recording or taping of presentations will be allowed.
5. *Timing.* When the contestant begins to talk, timing begins. The timekeeper will use cards to display remaining time. If a contestant exceeds the maximum time limit, he will be disqualified. If a piece is under the minimum time, then that piece will be disqualified. (See rules for individual time requirements under each event).
6. *Judges.* Judging will be by an odd number of judges or one critic judge.
 - a. Responsibilities of the judges include
 - i. evaluate the performance
 - ii. write on ballot constructive suggestions/criticisms to individuals; praise where praise is due

7. *Ranking and Ties.* Judges will rank contestants from first to last. In the case of panel judging, the following criteria, in the following order, shall be used to determine all ranks: (1) lowest sum of total ranks; (2) judges' preference. The contestant with the lowest sum of ranks shall be awarded first place. If at this point two or more contestants tie with the same low sum of total ranks, the tie shall be broken by the use of judges' preference. The judges' preference is written, not oral. (See procedure H in this section of the manual). If a tie existed for first place, after breaking the tie by the above methods, the person who was tied with the first-place winner is automatically given second place. Once a place has

been determined, the Speech Coordinator shall revert back to the first criteria (lowest sum) to determine the next rank, unless there is another tie, whereupon all contestants who tied shall be awarded a place before going on to another contestant or place.

8. *Judges' Preference.* Following is an example: Suppose contestants A and B had the same total number of points, hence neither could be ranked separately **except** through use of judges' preference. Remember, use of judges' preference is written, not oral.

Contestant	Judge #1 Ranking	Judge #2 Ranking	Judge #3 Ranking	Total Points	Preference of Judges	Final Rank
A	2(+)	5(-)	3(+)	=10	++	2nd
B	4(-)	2(+)	4(-)	+10	-+-	3rd

Explanation: Contestant A is ranked higher (or receives higher preference) than Contestant B by two of the three judges (#1 and #3) and thus is awarded the higher place. Contestant B shall be awarded the lower place before any other contestants or places are considered. When all other options have been exhausted to break the tie, the tie will be broken by a blind draw.

9. *Protests.* If a coach wants to lodge a protest they must put their complaint in writing and submit \$20 in cash to the Meet Director to have their protest heard.

ACCESS TO THE INTERNET will be granted. Students should have articles already downloaded to use with the proper URL address on the document. Typed mimeographed or hand-written materials may not be brought into the preparation room except as a card index file prepared by the contestant solely to find references to specific topics.

F. Procedure. The following process will be used to conduct this contest.

1. *Drawing.* The Speech Director will separate the topics into individual slips, leaving one topic on each slip. These slips will be placed in a receptacle and one contestant will be required to draw out five slips. Each contestants must draw all five (5) slips before looking at any slip. He may then take as his topic any one of those slips. After he has made his selection and the Speech Director has recorded the topic selected, the remaining four slips will be returned to the receptacle. The slips should be mixed before the next contestant is allowed to draw. Contestants draw topics at approximately seven-minute intervals. After drawing topics, contestants should not discuss them with others. Coaches/spectators are not allowed in the preparation room.
2. *Preparation Time.* Preparation time begins for each contestant when the 5th slip has been drawn. A contestant is allowed thirty (30) minutes for preparation. He is not allowed to discuss his topic with others. A monitor on duty will make certain the contestants work quietly in preparing their speeches. At the end of 30 minutes of preparation, the contestant will be sent to the speaking room to deliver his speech.

3. 10 second grace period.

B. Manuscript: Student should **read** selection(s) from a folder or notebook. Students shall not read from books or magazines. While students have usually practiced their selections often enough to have them memorized, they must visually refer to the manuscript as though it is being read.

C. Introduction: Must be memorized and delivered with notebook closed; it must contain the name and author of each selection, and include commentary which prepares audience for the performance. Embedded introductions are allowed.

D. Selection: Cutting must be from a single poem or medley of poems from the same source (book) but not necessarily the same poet. Selections must be published. Selections from plays, screen plays, or song lyrics shall not be used in this category.

E. Movement: Spontaneous changes in posture and gesture are permissible, however the speaker must be careful to draw the line between “acting” and “moving.” Use of movement should

2. Be a natural outgrowth from the literature being read;
3. Not call attention to itself; and
4. Be limited to one (1) step in any direction and returning to the base position before any other movement is begun. Lincoln-Douglas debate provides training for development of skills in argumentation, persuasion, research and audience analysis. Through this contest, students are encouraged to develop a direct and communicative style of oral delivery.
- IV. **DEBATE OF VALUE.** Lincoln-Douglas Debate centers around the resolution's support or lack of support for something that is valued. Values typically offered are abstract concepts: freedom, justice, a good quality of life, etc. Debaters should provide a criterion by which the value is achieved or measured. For example, justice may be upheld by a due process of law or a healthy economy is necessary for a good quality of life.
- V. **RESOLUTION.** The resolution to be used for regional meets and the state meet will be determined by the state debate committee or chair and will be communicated to all schools through the TAPPS website in a timely fashion.

- VI. **JUDGES.** The winner of a debate is determined by a third individual or panel of individuals. In the event of a panel, each judge should come to his/her own conclusion without conferring with others. Judges should be guided by the following principles:
- A. Judges should seek to evaluate which debater was more persuasive in presenting his/her side.
 - B. Judges should set aside their own personal beliefs about the resolution.
 - C. Judges should only consider those arguments made within the context of the debate. Anything said by either debater after a speech time limit or after the conclusion of the debate should not be considered in the decision.
 - D. Judges should refrain from providing oral critiques of the arguments made by debaters either during or after the debate. At the conclusion of the debate, a judge may offer some encouragement or comments regarding a debater's presentation or speaking style.
 - E. Judges should not interrupt debaters during speeches and should not present their own questions to debaters.
 - F. Judges' decisions with respect to winners and losers are final. A meet director may ask a judge to verify a winner or loser.
 - G. Judges should not disclose the winner orally to the debaters at the conclusion of the round. Rather, the judge should return a ballot with
 1. a clear winner marked,
 2. a reason for decision,
 3. speaker points.

VII. **STRUCTURE**

- A. Sides. Each side of the debate is represented by one debater.
 1. The Affirmative seeks to prove that the resolution is true.
 2. The Negative seeks to disprove the resolution.
 3. The side a debater is to defend is determined before the round, either in a posting or by a coin toss as determined by the meet host.
- B. Burdens
 1. Burden of Proof: Each debater has the equal burden to prove the validity of his/her side of the resolution as a general principle.
 2. Burden of Refutation (or Clash): Each debater has an equal burden to refute the arguments made by his/her opponent
 3. Burden to Address the Resolution: Each debater should focus his/her arguments on the central questions of the resolution.
- C. Speeches. The debate consists of a series of speeches and cross-examination (question and answer) periods. The speech time limits are as follows:
 1. Affirmative constructive speech: 6 minutes
 2. Negative's cross examination of the Affirmative: 3 minutes
 3. Negative constructive speech and refutation of Affirmative: 7 minutes
 4. Affirmative's cross examination of the Negative: 3 minutes
 5. Affirmative rebuttal: 4 minutes
 6. Negative rebuttal: 6 minutes
 7. Affirmative rebuttal: 3 minutes
 8. Preparation Time: Each side also has four minutes "prep" time that may be used during the round.
 9. Going past time limits may count against a debater at the discretion of the judge.
 10. Excessive abuse of the time allotments may result in disqualification at the discretion of the contest director.

VIII. **DELIVERY.** Communication with the audience is to be considered a high priority for TAPPS debaters. Oral delivery in Lincoln-Douglas debate is to be communicative and persuasive.

IX. **EVIDENCE.**

- A. Supporting evidence adds to the persuasiveness of the reasoning and argumentation of the debate. Whenever a debater quotes at any length the words of another, the fact the evidence is quoted material should be plainly stated.
- B. Availability of Materials. Speakers may use notes if they wish.
- C. Available in Writing on Demand. All participants submitting evidence in competition shall do so orally and possess and present upon demand of debater such evidence in published form. The evidence shall display full bibliographic source citation, even if the full citation is not orally delivered. Full citation should include the following elements: author's name, author's qualifications, complete source information, complete date and page number. Citations of online publications or from online data bases also require the publication medium (online), the Internet URL, or the name of the computer service, and the date of access. Failure to meet this requirement can, at the discretion of the judge and contest director, result in:
 - 1. the evidence not being counted in the round, or
