

Grimsley Junior High Emergency Action Plan

Aux Gym

KEY:

AED Locations

Tornado Shelter

EMS Entrance

EMS Entrance

School Entrance

Building Address

850 N Vaughn Road, Bentonville, AR.
72713

Building Coordinates

36.3777, -94.3018

Role of First Responders (ideally: ATC, head coach, or administrator)

1. Ensure scene safety and begin immediate care of the injured or ill athlete
2. Activate EMS
 - a. Designate an individual to call 911
Provide pertinent information: name, location, telephone number, number of injured individuals, condition of the injured, first aid rendered, specific directions
3. Designate retrieval of emergency equipment

Role of Second Responders (ideally: athletic training student(s), assistant coach(es), administrator, resource officer, etc)

1. Call 911
 - a. Provide pertinent information: name, location, telephone number, number of injured individuals, condition of the injured, first aid rendered, specific directions
2. Retrieve emergency equipment
3. "Flag down" EMS and direct them to scene

4. Scene control: limit scene to first responders and medical personnel only- remove bystanders (athletes, parents [even if it is the injured athlete's], additional coaches, etc) from area
5. Contact injured athlete's parent or guardian if not present
6. Contact Athletic Training staff if not present

Venue Directions

Instruct EMS to enter off of N Vaughn Rd onto grass access road just north of marked school entrance. Drive through grass to side door entrance of the north side of building

Emergency Equipment

Practices: AED located outside of the boys locker room. Portable AED available in the court sport/spirit coaches office in blue locker at the back of the office.

Inclement Weather

In the case of inclement weather, teams will go to their respective locker rooms.

All coaches and athletes will use the following guidelines in the event of lightning:

In the event of lightning being present, the Athletic Trainer will alert all coaches when the lightning detection device detects lightning within 10 miles of the facility. Should an Athletic Trainer not be present, coaches should check their phones for lightning notifications or communication from athletic trainers and/or Perry Weather.

In lightning event all individuals are to leave the athletic site and head for safe shelter (enclosed, non-metal structure). You are not to return to the field for 30 minutes after the storm has passed (last lightning detected within 10 miles), or until the Athletic Trainer has given clearance.

******The Athletic trainer will begin a timer from the last lightning recorded within 10 miles.

Each time there is a new strike of lightning within 10 miles the 30 minute time must restart. If 30 minutes has passed and lightning has not been recorded within 10 miles, the athletic trainer can give clearance to return to participation.
