5. Contact injured athlete's parent or guardian if not present
6. Contact Athletic Training staff if not present

Venue Directions

Instruct EMS to enter off of Tiger Blvd onto NW Leopard Lane at the South entrance of the school, grass field is to the immediate left.

Emergency Equipment

Practices: AED located outside boys coaches office, and in boys coaches office storage room (indoor master key needed in case door is locked). Portable AED available in boys coaches office storage that may be taken to the practice field.

Narcan present in AED boxes.

Inclement Weather

In the case of inclement weather, teams will go to the PE locker rooms in the gymnasium.

All coaches and athletes will use the following guidelines in the event of lightning:

In the event of lightning being present, the Athletic Trainer will alert all coaches when the lightning detection device detects lightning within 10 miles of the facility. Should an Athletic Trainer not be present, coaches should check their phones for lightning notifications or email communication from athletic trainers.

In lightning event all individuals are to leave the athletic site and head for safe shelter (enclosed, non-metal structure). You are not to return to the field for 30 minutes after the storm has passed (last lightning detected within 10 miles), or until the Athletic Trainer has given clearance.

******The Athletic trainer will begin a timer from the last lightning recorded within 10 miles. Each time there is a new strike of lightning within 10 miles the 30 minute time must restart. If 30 minutes has passed and lightning has not been recorded within 10 miles, the athletic trainer can give clearance to return to participation.
