Emergency Equipment

Games: AED, splint bag, and first aid kit stocked with basic wound care supplies will be located in the home dugout at the end of the bench closest to the bull pen. Additional equipment may be accessible from the Den indoor facility and Gym athletic training rooms.

Practices: AED located in concession stand; additional equipment (splint bag, crutches, pulse oximeter, blood pressure cuff, stethoscope, etc.) may be accessible from the Den and Gym athletic training rooms.

Lightning Policy

In the event of lightning being present, the athletic trainer will alert all coaches & officials when lightning detection device detects lightning within 10 miles of the facility. Should an athletic trainer not be present, coaches should check their phones for lightning notifications or email communication from athletic trainers.

In either event, all individuals are to leave the athletic site and head for safe shelter. The home team will go to their locker room, and the visiting team will go to the indoor football facility. Teams must wait until the athletic trainer has given clearance, 30 minutes after the last lightning strike is detected. The athletic trainer will begin a timer from the last lightning recorded within 10 miles. Each time there is a new strike of lightning within 10 miles the 30

minute time must restart. If 30 minutes has passed and lightning has not been recorded within 10 miles, the athletic trainer can give clearance to return to participation.
