### **General Tie Breaking Rules and Procedures**

1. Ties for the District Championships and any playoff seed will be decided as follows:
  - a. In case of any tie for a championship or playoff seed, the first consideration will be based on a head to head record or outcome between the tied teams. Head to head games will be used first to break all ties.
  - b. In the case of a tie between teams for the district championship, all teams would be declared district champions. All teams will be officially listed as co-champions.
  - c. In case of a tie between multiple teams, the first tie breaker method used will be the best record from head to head games among the teams tied and after each tie is broken, the teams will revert back to head to head method to break remaining ties. Then if teams are still tied after the head to head system, the teams will have a seeding game/elimination game or tournament to determine the higher seeds (unless mutually agreed upon by the coaches to flip a coin).
  - d. If two or more teams are tied for the last playoff seed a tie breaker will be played, unless there is not enough time before district certification, then there will be a coin flip for seeding purposes.

### **For all Teams Sports except Soccer**

In case of a tie between multiple teams (two or more), the first tie breaker method used will be the best record from head to head games among the teams tied and after each tie is broken, the teams will revert back to head to head method to break remaining ties. Then if teams are still tied after the head to head system, the teams will have a seeding game/elimination game or tournament to determine the higher seeds (unless mutually agreed upon by the coaches to flip a coin).

(A) Example Scenario

Laredo Martin, Pioneer, and Laredo Cigarroa all went 9-7. Head to head Laredo Martin was 0-4, Cigarroa was 3-1 and Pioneer was 3-1. In the old plan we would have had to play a tourney. In the new plan Martin would be out and the other two teams would have played for the fourth spot.

## **Tournament Format**

When tournament is going to be used to break ties, a coin flip will be used to determine opponents in case of multiple teams being tied.

### **\*3 Team Tournament Format**

1. "A" draws a bye, "B" plays "C", "C" defeats "B", "C" plays "A" and "A" wins. "A" is the first placed seed and "C" is the second seed.
2. "A" draws a bye, "B" plays "C", "C" defeats "B". "C" plays "A" and "C" wins. "C" is the first placed seed, but "A" must play "B" to determine second seed.

### **\*4 or more Team Tournament Format**

If four or more teams tie for a playoff spot, a single elimination playoff tournament determined by a lot (draw) will determine play-off seeding.

## **Type of Play**

District 31-5A will play the approved schedule attached: The district championship will be determined by total district win-loss record. In case of ties for the District play-off seeding, the following criteria will govern tie breakers:

1. If there is a two-way tie and one team has won both mutual games then the team is designated "first seed" for play-off purposes. The other tying team will be designated "second seed". Both teams shall be declared co-champions.
  - a. In case of a tie between team "A" and team "B" in which they split their regular season games, a one game playoff will determine first and second seed, or mutual agreement of coin flip by coaches will determine seeding. If one team would like to flip and the other would like to play, then the tie breaker will be played, unless both teams mutually agree to seeding. Both teams shall be declared co-champions.
  - b. If there is a tie among three or more schools, the seeding will be determined according to win-loss percentage of head to head games. Teams should be declared co-champions
  - c. If three teams are tied, Team A beats Team B and Team B beats Team C and Team C beats Team A: then a play-off elimination tournament between the three would determine their seeds. A draw would determine who would get a bye in the first round. A neutral site will be decided by the teams involved. If all teams tied decide to flip a coin then they will draw for seeding. In the event that one or two teams would like to flip and the others would like to play then the tie breaker will be played unless the teams involved mutually agree to seeding.
2. If four or more teams are tied, head to head competition during the course of the season would determine the top seeds. If all tied, then a single elimination playoff tournament would be played at the end of the season. (Draw will occur)
3. In case of a three-way tie for first place where there are mutual wins among them, there will be a coin flip if all three coaches agree, to determine the seeding for the playoffs. If the coaches do not totally agree then a district playoff tournament will be played in order to determine first, second, and third seed representatives. The method of placing the teams will be a "draw" If the team drawing the "bye" wins their game, they will be

declared the “first seed”, and the loser will be declared the “second seed”. However, if the team drawing the “bye” loses their game, then they will need to play the loser of the first-round game to determine the “second seed” representative or mutual agreement of coin flip will determine 2nd and 3rd seed. In any case, the teams involved will be declared co-district champions.

4. If there is a two-way tie for second place and each team has won a mutual game, then there will be a play-off game to determine the second seed. If mutually agreed by both coaches a coin flip can determine the seeding, if not a seeding game will be played. If there is a two-way tie and one team has won both mutual games, then that team is the district second seed team. The other team would be the third seed representative.

5. For the third seed tie, refer to number 4 on breaking ties between 2 teams.

6. If there is a tie for the fourth seed, the head to head system will be used. If there are mutual wins amongst the two teams tied, a game must be played to determine the fourth seed.

7. Seeding game will be played at a site within the 31-5A district unless no venues are available. If no venues in 31-5A are available; then any RGV venue or UTRGV may be used. The site must be mutually agreed by the teams involved. If a RGV or UTRGV venue is used, expenses will be split by both teams.

8. A coin flip will determine the seeding game if the two teams involved can not agree on a site. Seeding game will coincide with regular district game times.

9. Any seeded game postponed due to uncontrollable circumstances will be played on the next available date with all agreements still in effect.

### **Sites, Dates, and Officials**

Teams will play at any site in 31-5A district of the teams in the tournament. Teams will flip a coin for times, dates and site to play. Officials will be agreed upon by teams involved

### **Definition of best record between head to head**

The head to head record among the teams tied is the only games used for the head to head tie-breaker system. When two teams are tied, the one team that has the best record among the two teams tied will be seeded higher. When multiple teams are tied, the team that has the best record among the teams tied will be seeded higher.

### **For Soccer Only**

In case of a tie between multiple teams, the first tie breaker method to be used will be the best record from head to head games among the teams tied and after each tie is broken, the teams will revert back to head to head method to break remaining ties. If teams are tied after the head to head method, tied teams will use the goal differential system of the games played against each other and then go back to head to head to break additional ties. Then if teams are still tied after the head to head system or goal differential, the team will have a seeding game/elimination game or tournament to determine the higher seeds (unless mutually agreed upon by the coaches to flip a coin). Tournament format information is with other team sports.

### **Goal Differential Example:**

Team A wins 1<sup>st</sup> game 5 to 4 (Team A has one goal advantage)

Team B wins 2<sup>nd</sup> game 3 to 1 (Team B has two goal advantage)

Team B would be designated higher seed.

### **Noisemakers-**

Except in their normal course of business, emergency vehicles shall not flash lights or sound sirens during the course of a game.
