Many students who compete in athletics have dreams of becoming a collegiate athlete. The love of sport and competition often fuels the desire to work in achieving lofty goals. The purpose of this page is to offer much needed information regarding the recruiting process along with academic requirements that are mandatory in order to be eligible to compete at the college level.

In the competitive world of today, it is imperative that Student-Athletes take an active role in promoting themselves to college recruiters. There are an estimated 8 million student-athletes competing in High School Sports, most having dreams of playing in College.

On the left side of this page, there is a link to view a Free recruiting informational video that you are encouraged to watch. Additionally, there are several useful links that will help in developing an understanding of the recruiting process. A checklist list for each academic year in high school has also been developed to help make sure that you are on the right path to achieving your goal of playing at the next level.

As you begin the recruiting process, it is important that you are realistic about your academic and athletic abilities. When researching colleges and universities, keep in mind that each institution is unique and will offer different experiences. Find the one that is best suited for you!

Hopefully this information is beneficial in setting academic and athletic goals. Coaches and academic counselors are here to support you and help with questions as they arise. It is vital to understand that the Student-Athlete is ultimately responsible for putting in the hard (often extra) work in development of their overall recruitability!!
