

INWOOD ACADEMY ATHLETICS

TRAILBLAZERS

Inwood Academy athletics strives to use athletics as a means to develop the overall student by teaching life skills through competitive experiences and enhancing their ability to be a positive impact in the community. Our philosophy desires to provide the platform for students to compete at a high level not only in the area of competition but also in life.

Athletes of Inwood Academy have consistently achieved higher gpa's, increased attendance, and have fostered healthy relationships within the student body. Athletes consistently volunteer at local community programs, serve in food pantries, and mentor/tutor students in the lower grades of our school.

We desire to enhance the overall impact of our students by thinking innovatively on how to cultivate an atmosphere of excellence. Facilitating partnerships with local business and community members is a means to enhance our programming impact. With your help we can continue the work, reach more students, and remain on the cutting edge of technological advancements of the industry.

WILL YOU BECOME AN INWOOD ACADEMY ATHLETICS PARTNER?

PLEASE KEEP IN MIND ANY CONTRIBUTIONS WILL BE ACCEPTED TO SUPPORT OUR ATHLETES.
