**Purpose:** To provide Edmond Santa Fe High School Athletics with an emergency action plan (EAP) in case of a serious or life-threatening condition that arises during practice or competitions. AT, coaches, and others involved in athletics must constantly be on guard for potential injuries, and although the occurrence of limb-threatening or life-threatening emergencies is not common, the potential exists. Therefore, prepared emergency responders must have planned in advance for the action to be taken in the event of such an emergency.

## **EDMOND PUBLIC SCHOOLS SEVERE WEATHER GUIDELINES**

### **Lightning**

Established criteria should be discussed with officials and coaches prior to the beginning of the contest.

#### **Role of athletic trainer and site admin:**

1. Lightning at 20-15 miles - The athletic trainer and school admin will monitor lightning. (Lightning App, Weather Bug)
2. When lightning is within 12 miles, the Athletic Trainer and administrator in charge should notify officials. Administrator will contact PA announcer
3. Lightning under 10 miles- Must be off field – DANGEROUS
4. After athletes have been moved to a safe location, the athletic trainer, administrators, officials, and coaches should meet to evaluate the criteria used to determine if and when play will resume for activity.
  - Home team-Football Field House
  - Visiting team-Track Field House

**DUE TO APPROACHING INCLEMENT WEATHER, PLAY WILL BE TEMPORARILY SUSPENDED. AS A PRECAUTIONARY MEASURE, WE ARE GOING TO EVACUATE THE STADIUM. AT THIS TIME WE ASK THAT YOU LEAVE THE STADIUM AND SEEK INDOOR SHELTER. THE ATHLETIC TRAINER, ADMINISTRATION, OFFICIALS, AND COACHES WILL EVALUATE THE SITUATION TO DETERMINE IF AND WHEN PLAY WILL RESUME FOR ACTIVITY.**

After athletes have been moved to a safe location, ATC, administrators, officials, and coaches should meet to evaluate the criteria used to determine if and when play will resume for activity. The following criteria will be used:

- Can the expected duration of the storm/weather be determined?
- Has the contest reached a point to which it can be declared official?
- Is the contest a playoff, district, or conference game?
- Can the contest be rescheduled?
- Are officials available for rescheduled?
- What is the travel distance for the visiting team?

### **Tornado**

Each team will go to their respected locker room. Fans will go to large and small gymnasiums in the main building. Stands will be cleared and not let back in until cleared by ATC and site AD.

# Emergency Action Plan *(cont.)*

## SEVERE HEAT POLICY

Water is to be available at all times with mandatory breaks during practices.

The athletic staff must watch student-athletes carefully for signs of trouble, particularly athletes who lose too much weight, overweight student-athletes, and the eager student-athletes who constantly competes at top capacity.

Athletic staff must know what to do in case of an emergency. They should be familiar with immediate first aid practices and pre-arrange procedures for obtaining medical care, including ambulance service.

The athletic staff must know both the temperature and humidity of the activity location. The greater the humidity the more difficult it is for the body to cool itself.

If any athlete is noted to have difficulties in the heat, their activity should be closely monitored or canceled because others are likely also to have difficulties.

### **Signs and Symptoms of Heat Illness:**

- Headache
- Dizziness
- Rapid pulse
- Nausea/Vomiting/Diarrhea
- Skin is flushed/cool and pale
- Disoriented/confusion
- Shallow breathing Muscle cramping
- Red, dry skin, seizures
- Loss of consciousness/Collapse
- Unusual behavior/Irritability

**Exertional Heat Exhaustion:** Defined as an elevated core body temperature between 102- 104 degrees F. This condition is not as severe as heatstroke but if left untreated it can progress to heat stroke. Initiate cooling procedure immediately. No return to activity.

**Exertional Heat Stroke:** Defined as core body temperature > 104 degrees F Delay in recognition/treatment could be fatal. **Initiate cooling and Emergency Action Plan immediately.**

EAP specifically for heat illness-Cool first, call 911 and transport second

### Role of First Responder

- Immediate care of injured athlete
- Retrieve Polar Pod and coolers of ice or take to nearest ice tub
- Activate Emergency Medical System (Call 911)
  - Provide name, address, phone number, number of injured persons, condition of injury, first aid treatment, specific directions and other necessary information
- Direct EMS to scene
  - Designate individual to “flag down” and direct EMS
  - Control the crowd/limit spectators around the scene

Thirty (30) minutes prior to the start of activity, temperature and humidity readings should be taken at the practice/competition site.

If a reading is determined whereby activity is to be decreased (above 95 degrees Heat Index), then re-readings would be required every 30 minutes to determine if further activity should be eliminated or preventative steps taken, or if an increased level of activity can resume. Using the following scale, activity must be altered and/or eliminated based on this Heat Index as determined.
